

Be Prepared to Evacuate

Many areas of San Joaquin County have levees or dikes surrounding local neighborhoods. If you live in one of these areas you should be prepared to evacuate your home in the event of a problem developing with your neighborhood levee. Local fire and law officials have divided neighborhoods into evacuation zones to help conduct emergency evacuations in an orderly manner.

Officials have identified streets which residents should use to leave as well as locations in the neighborhood where they can obtain assistance in they cannot leave quickly on their own.

Please keep this brochure in a place you can find in an emergency. Use the map to identify

your closest evacuation route, the closest location where you can get help if necessary. Please review the following information with your family:

- Listen to KFBK 1530 AM for information for your neighborhood
- Check television news, social media or websites listed below for information.
- If you are forced to shelter in place, make sure you can access the roof.
- Have a flashlight or other means to signal rescue workers.
- Do not try to cross flood waters, currents and depth can be dangerous.
- Have a plan where're your family can safely meet if separated during the event.

This Brochure was funded with a grant from the Federal Emergency Management Agency Region IX, Oakland, California.

Be Prepared!

Have a battery or crank AM/FM radio. Critical information during an emergency will be broadcasted through commercial and government owned radio transmitters.

Start an evacuation kit. Waterproof containers are recommended. Copies of prescriptions, important family documents should be included in the kit.

Protect your pets with an identification collar and include a picture in your evacuation kit.

INFORMACIÓN DE SEGURIDAD ADICIONAL

- Busque KFBK 1530 AM para escuchar las primeras instrucciones para su vecindario.
- Escuche las otras frecuencias de radio cuando se le indique. (VER SIMBOLO DE RADIO EN EL MAPA)
- Si las aguas lo obligan a refugiarse en una edificación, asegúrese que pueda llegar al techo.
- Si se queda atrapado, consiga una linterna o una tela de color brillante para hacer señas.
- No maneje donde esté inundado. El agua quieta es muchas veces más honda de lo que aparenta.
- Tenga un plan con su familia de dónde encontrarse si son separados.
- Encuentre más información en estos sitios virtuales:
<http://www.co.sjgov.org/oes> (vea conexión "Family Preparedness")
<http://www.floodsmart.gov> (Sitio de Preparación a Inundación de FEMA)
- Se recomienda mucho que las personas que viven tras de los diques obtengan seguro contra inundaciones.
